Custom Handcrafted **PREMIUM CARBON FIBER GRIPS**

REDLINE CARBON FIBER EXOTIC FX

The latest exciting addition to our Exotics line of carbon fiber grips is here! Extremely comfortable, well balanced, and hand finished to perfection, these grips are sure to be an instant hit with even the most demanding gun enthusiast!

Each pair of Carbon Fiber Exotic FX grips features a finely finished hardwood body which has been masterfully combined with a distinctive carbon fiber butt-panel and accented with our unique "Redline" liner. Each pair is finished by hand by a master craftsman to provide you with an exceptional product you will be proud to put on your favorite firearm.

ABOUT OUR GUN GRIPS

The photographs on these pages are representative of the grain, figurative, and coloration which is generally found in a particular species of wood. However, due to the natural variations which occur throughout a block of wood, each pair of grips will be unique. Our "standard" handcrafted gun grips tend to be a little thicker (typically 30% thicker) than the stock grips provided by most gun manufacturers.

Each sample grip is shown displayed on a "stock" 45 calibre handgun. However, we routinely design and handcraft grips for a wide variety of guns. Please contact us with your specific requirements and we will be happy to design a set of grips for your specific weapon. **GUNS ARE NOT INCLUDED WITH ANY HANDGUN GRIP ORDER!**
